

AnkaScrewTM XtremTM

Heavy Duty Seismic Anchoring

A seismic certified heavy duty screw-in anchor

ETA seismic certified heavy duty screw-in anchor, certified for fire exposure & seismic C1 & C2 applications.

Easy to install and remove where required.

Compliance

European Technical Assessment (option1) – ETA-20/0731

Design According to:

- ✓ AS 5216 (formerly TS101)
- ✓ AS 1170.4 – Earthquake Actions
- ✓ EN1992-4 (formerly ETAG 001 Annex C, E & TR045)
- ✓ NZ 3101 (A3) Section 17 – Seismic Design C1 & C2

ETA Certified for seismic C1 & C2 applications.

PREMIUM ANCHORING

**MULTI
DIRECTIONAL
APPLICATION**

Advantages

Fast and easy to install:

Simply screws into hole.

Fast and easy to remove:

Screws out leaving an empty hole with no protruding metal parts to grind off.

Close to edge and for close anchor spacing:

Does not expand and burst brick and block.
