

FomoFill™

Construction Chemicals and Accessories

Product Identifier FMPLG750, FMSVM500

Product description

FomoFill™ is a versatile polyurethane polymer that reacts with moisture in the air causing it to expand to fill any shaped hole or cavity. The cured foam can then be cut, shaped and painted as desired.

Relevant building code clauses

F2 Hazardous building materials - F2.3.1

Contributions to compliance

For F2 Hazardous building materials refer to the FomoFill™ SDS (Safety Data Sheet) listed in supporting documentation

Scope of use

FomoFill™ is a versatile polyurethane polymer that reacts with moisture in the air causing it to expand to fill any shaped hole or cavity. The cured foam can then be cut, shaped and painted as desired. FomoFill™ is great for thermal insulation, to block out drafts or to fill /repair big holes prior to painting.

Features and benefits:

- Expands to fill big holes
- Once cured, can be cut and shaped as required
- Non-shrink
- Can be sanded, filled and painted to produce a neat finish
- Excellent insulator
- Predominantly closed cell structure
- Ozone friendly – CFC, FC and HFC free

Conditions of use

FomoFill™ should be used by a skilled professional in accordance with the application guidance found in the product brochure.
