

PoziLite™

Concrete Patch and Repair

Product Identifier PRLHB

Product description

PoziLite™ FR Fine Render is a polymer modified fairing mortar for applications in thin layers. It produces a natural concrete, grey appearance to concrete or masonry surfaces.

Relevant building code clauses

F2 Hazardous building materials - F2.3.1

Contributions to compliance

For F2 Hazardous building materials refer to the PoziLite™ SDS (Safety Data Sheet) listed in the supporting documentation.

Scope of use

PoziLite™ FR Fine Render is a polymer modified fairing mortar for applications in thin layers. It produces a natural concrete, grey appearance to concrete or masonry surfaces. It can be applied from feather edge up to a maximum thickness of 5mm. PoziLite™FR Fine Render is shrinkage compensated and based on hydraulic binders, high-grade fillers, and synthetic polymers.

Features and benefits:

- High build repairs with exceptional performance characteristics
- Shrinkage compensated allows for long term dimensional stability
- Low permeability provides protection from chloride attack and carbonation
- High build repairs can be completed in single application
- High ultimate strength
- High abrasion and impact resistance
- One component - just add to water and mix
- Excellent workability
- Extremely durable

Conditions of use

PoziLite™ should only be used by a skilled professional in accordance with application guide stated on the product brochure.
