OPTIMUM ANCHORING SOLUTIONS™

The NEW ChemSet™ 18V Universal Applicator

The ChemSet CUAR18S is a cordless 18V applicator designed to provide greater flexibility on-site through a dual-purpose design.

Unlike the previous version, the CUAR18S combines:

- Chemical anchoring application
- Caulking gun functionality

This allows users to switch between anchoring and sealing/adhesive applications using a single tool, improving productivity and reducing the need to carry multiple applicators.
